## Today in History

Poet-writer Edgar Allan Poe died at age 40 in 1849. He is acknowledged today as one of the most brilliant and original writers in American literature. His skillfully wrought tales and poems convey with passionate intensity the mysterious, dreamlike, and often macabre forces that pervaded his sensibility. He is also considered the father of the modern detective story. Poe and his work appear throughout popular culture in literature, music, films, and television.
