## Today in History

Jesse Owens was born today in 1913. Owens was an American track and field athlete who specialized in the sprints and the long jump. He participated in the 1936 Summer Olympics in Berlin where he achieved international fame by winning four gold medals: one each in the 100 meters, the 200 meters, the long jump, and as part of the 4x100 meter relay team. The Jesse Owens Award, USA Track and Field's highest accolade for the year's best track and field athlete, is named after him, in honor of his significant career.
